6th International Conference on Lignocellulosic Ethanol - Presentations online

The 6th International Conference on Lignocellulosic Ethanol was organised jointly by DG ENER and all major companies in the lignocellulosic ethanol industry.

The conference gathered about 200 participants from 36 countries including USA, Brazil, Canada, Australia, New Zealand, Japan, Korea, India, and Ukraine, in addition to EU countries. Speakers included governmental experts from the European Commission, FAO, IEA, Biofuture Platform, Brazil and India; and from project developers such as Biochemtex (Italy), Clariant (Germany), Shell, ST1 (Finland), DSM/POET (Netherlands/USA), Praj Industries (India), Inbicon (Denmark), Borregaard (Norway), De Smet (Belgium).

The presentations of 6ICLE are now available.
